DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.

Election/Restrictions

This application contains claims 6-8 are drawn to an invention nonelected with traverse in paper mailed 3/15/05. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 thru 5 it is indefinite as to the relationship of the "incubator" and "chamber".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 00/53720.

Figure 1 of the WO publication essentially discloses the claimed invention. The figure shows a climate controlled cabinet (100) which is equivalent to the claimed incubator (page 3, lines 10-14). The cabinet includes an interior chamber having a “culture container accommodating rack” (111), “a culture container transport device” in the form of a conveyor (114), and a camera (108). The conveyor (114) moves the containers out of the accommodating portions of the shelves to a specified position centrally located in the chamber for imaging by the camera (108) (see page 3, lines 15-30). The WO publication also discloses that the shelves are capable of holding standard microplates or MICROCARDS or standard petri dishes. These containers have different dimensions (heights) and therefore inherently read on the claimed invention (page 7). The embodiments of claim 3 is disclosed on page 9, line 24-28. The embodiments of claim 4 are discussed on page 3, lines 24-30. The embodiments of claim 5 on page 9, lines 19-24.

Conclusion

Art Unit: 1744

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Redding whose telephone number is 571-272-1276. The examiner can normally be reached on Mon.-Fri. 6:00 - 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Kim can be reached on 571-272-9178. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
